Directories and Information Products

NIDRR Program Directory—Lists over 300 projects funded by the National Institute on Disability and Rehabilitation Research covering a wide array of disability and rehabilitation issues. Contains abstracts and contact information; fully indexed, easy to use. Current information is available online. **PDF editions of previous directories are available online. No print edition is available.**

REHABDATA—NARIC's comprehensive database of disability and rehabilitation research literature spanning 50 years. Each record includes a bibliographic citation, a 250+ word abstract, and keywords from the *REHABDATA Thesaurus*.

The Knowledgebase—3,500 listings of organizations, agencies, publications, and Internet resources collected by our Information Specialists.

Contact an Information Specialist regarding customized database searches.

These directories and more are available in searchable databases on NARIC's web site; more than 75,000 resources are at your fingertips at <http://www.naric.com>

The National Rehabilitation Information Center is operated by HeiTech Services, Inc.
NARIC is funded by the National Insitute on Disability and Rehabilitation Research (NIDRR).

Other Documents Available from NARIC

Except where noted, these documents are available for \$1 each with a minimum charge of \$5.

Chartbook on Work and Disability in the United States, 1998.

Compiled by InfoUse for NIDRR, the Chartbook is a reference on work and disability in the United States population, created for use by both technical and nontechnical audiences. Also available online at <http://www.infouse.com/disabilitydata/workdisability.html>. **Cost: \$1.**

Chartbook on Women and Disability in the United States, 1999.

Compiled by InfoUse for NIDRR, this Chartbook is a rich resource for anyone interested in disability and its impact on girls and women. Also available online at <http://www.infouse.com/disabilitydata> **Cost: \$1.**

Disability Statistics Reports

Selected highlights of these reports are available online from the Disability Statistics Center at <http://dsc.ucsf.edu>

Report 16: Medicaid Home and Community-Based Services, 2001.

Published by NIDRR. Presents estimates of program participants and expenditures, including breakdowns by specific populations and types of services. **Cost: \$1.**

Report 15: Transitions in Employment and Disability Among People Ages 51-61 (2000).

Published by NIDRR; analyzes transitions in disability and employment from 1992 to 1994. Estimates the incidence of disability and explores the effect that developing a disability has on maintaining employment. **Cost: \$1.**

Report 14: Mobility Device Use in the United States (2000).

Published by NIDRR; focuses on the population using devices, providing a detailed profile of their demographic characteristics. **Cost: \$1.**

Report 13: Computer and Internet Use Among People with Disabilities (2000).

Published by NIDRR. Uses data from current surveys to demonstrate that gaps in computer and Internet use based on disability status are just as large as those based on race and ethnicity. **Cost: \$1**

Report 12: The Employment Experience of Persons with Limitations in Physical Functioning (1999).

Published by NIDRR. An analysis of the 1996 California Work and Health Survey, this report describes the differences between persons with and without physical disabilities over a wide range of employment characteristics, including the qualitative aspects of employment. **Cost: \$1.**

Report 11: A Profile of Adults Needing Assistance with Activities of Daily Living, 1991-1992 (1997).

Published by NIDRR. Provides a profile of the noninstitutionalized adult population needing assistance with activities of daily living and estimates the size of the population eligible for federal personal assistance services benefits under different ADL, income, and age criteria. Also describes current sources of ADL assistance by recipient type. **Cost: \$1.**

Report 9: Income and Program Participation of People with Work Disabilities (1997).

Published by NIDRR. Examines the relationships between the prevalence of work disability, program participation, and economic well-being. **Cost: \$1.**

Report 8: Families with Disabilities in the United States (1996).

Published by NIDRR. Provides statistical information on US families with members having disabilities: selected demographic and socioeconomic characteristics, and utilization of health services by families with and without members with disabilities. **Cost: \$1.**

Report 7: Disability in the United States: Prevalence and Causes, 1992 (1996).

Published by NIDRR. Presents data on the prevalence of disability in the community, its sociodemographic distribution, the severity of disability, and the chronic disorders, injuries, and impairments that cause disability. **Cost: \$1.**

Report 6: HIV/AIDS, Disability, and Employment (1996).

Published by NIDRR. Provides a baseline profile of HIV-related health status, degree of functional limitation and depressive affect, receiptship and denial of publicly funded disability benefits, private and publicly funded health insurance coverage, labor force participation, and illness-related changes in employment status. **Cost: \$1.**

Report 5: Medical Expenditures for People with Disabilities in the United States, 1987 (1995).

Published by NIDRR (1995); focuses on the economic impact of disability and presents the results of an analysis of the medical care expenditures on non-institutionalized people with disabilities. **Cost: \$1.**

Disability Forum Report 4: Trends in Disability Prevalence and Their Causes: Proceedings of the Fourth National Disability Statistics and Policy Forum (1998).

Published by NIDRR (1998); discussions of disability trends and the future of disability research. Available online through the Department of Education at <http://www.ed.gov/OSERS/NIDRR/pubs.html>. **Cost: \$1.**
