Stroke—Get help, get better

According to the National Institutes of Health “Stroke is a leading cause of serious, long-term adult disability. Four million Americans are living with the effects of stroke. The length of time to recover from a stroke depends on its severity. Fifty to 70 percent of stroke survivors regain functional independence, but 15 to 30 percent are permanently disabled.” The organizations and agencies listed in this guide can help you and your family find the resources, rehabilitation, and support you need.

These and other resources are also available from our “browse by topic” webpage at www.naric.com!
